Head of Clinical Informationist Services

Department: Woodruff Health Sciences Center Library

Salary: Commensurate with qualifications and experience

Position Availability: Immediately

Description of Institution and Library

Emory University is recognized for its outstanding liberal arts college and superb professional schools. The Woodruff Health Sciences Center operates the health professions schools of medicine, nursing, and public health, as well as the Winship Cancer Institute and Emory Healthcare, the largest health system in Georgia. Generating more research funding than any other Georgia institution, Emory University and Emory Healthcare received $507.1 million in research funding in 2013.

Emory Healthcare consists of four hospitals and two specialty hospitals. School of Medicine faculty and medical trainees also practice at three additional teaching hospitals in Atlanta.

The Woodruff Health Sciences Center Library offers a wide range of services and programs to optimize research, education, and clinical care processes throughout the Woodruff Health Sciences Center and the Graduate Division of Biological and Biomedical Sciences with reliable and sustainable access to and utilization of data, information, and knowledge.

Position Duties

The Head of Clinical Informationist Services leads the unit in providing a range of services to School of Medicine faculty and graduate medical trainees, Emory Healthcare attending physicians and staff, and staff at various clinical teaching sites. Programs include products and services to support clinical and educational activities, response to requests for information, collection management, instruction, assessment, and collaboration and consultation on clinical research projects, including healthcare quality improvement initiatives.

In this context, the Head of Clinical Informationist Services supervises the training and work of three clinical informationists and a library specialist and provides leadership in development and delivery of the clinical and nursing programs and services. Specific duties include the following:

- Serves as the unit head for Clinical Informationist Services with programmatic responsibility for functional areas and direct and indirect supervision of librarians and staff (3 FTE librarians and 1 staff).
- Coordinates and participates in the work of the Clinical Informationist Service: 1) consultation and collaboration with clinical faculty, medical trainees, and hospital staff on research and quality improvement projects; 2) development of information products and services to facilitate on-demand use of information in clinical and educational activities, such as resident report and journal club; 3) assessment of the impact of services; 4) identification and development of new services.
• Participates in the development and execution of a strategic plan to ensure that the Clinical Informationist Services support the established mission and initiatives of WHSC Library efficiently and cost-effectively.
• Communicates regularly with key constituencies.
• Ensures that the branches are operational and maintained; coordinating with departments at branch locations to ensure maintenance of facility and equipment.
• Consults with Emory University students and faculty on the use of library resources for their research, study, and teaching.
• Keeps abreast of new technologies and trends and maintains up-to-date professional knowledge and skills by attending and/or participating in conferences, workshops, and webinars.

**Required Qualifications**

• ALA-accredited master’s degree in Library and Information Science OR equivalent education and experience (subject expertise combined with appropriate biomedical experience and/or library experience).
• Experience in a medical or academic health sciences library.
• Experience in supervision, including training, delegating responsibility, providing guidance and direction, and monitoring and evaluating performance.
• Ability to build and sustain effective interpersonal relationships with library staff, faculty and students, off campus faculty and administrators, campus administrators, etc.
• Evidence of analytical, organizational, communication, project, and time management skills and demonstrated ability to set priorities, and meet deadlines.
• Demonstrated proficiency and capabilities with personal computers and software, the Web, and library-relevant information technology applications.
• Commitment to fostering a diverse educational environment and workplace and an ability to work effectively with a diverse population.

**Preferred Qualifications**

• Documented educational background in the biological/biomedical sciences
• Advanced degree (subject master’s or doctoral) in a relevant discipline.
• Experience in collaborating with clinicians and/or faculty on clinical, research and educational activities, such as participating in patient or teaching rounds, conducting systematic reviews, or designing and teaching modules or courses.
• Experience providing and managing library services in a clinical setting with evidence of progressively increasing scope of responsibility

**General Information on Librarian/Faculty Equivalent Positions**

Librarians are faculty-equivalent appointees who provide professional service in the University libraries and special collections in support of the University’s educational, research, and public services missions.

Emory provides an extremely competitive fringe benefit plan that includes personal leave, holiday pay, medical and dental plans, life insurance, courtesy scholarships, and tuition reimbursement just to name a few.
