Research Library Fellows Program 2014-2016

Emory University Libraries & Information Technology Division announces the Librarian Fellows Program for 2014. We invite applications from graduates with master’s degrees in information studies or library/information science awarded between May 2013 and June 2014. Fellows will be appointed to two-year term positions with start dates that may occur between summer and early fall 2014.

Emory University is one of the top-twenty national universities in the U.S. News & World Report’s “America’s Best Colleges.” Additionally, Emory is thirteenth in the country for best values among private universities in the 2010 Kiplinger's Personal Finance magazine. The university is recognized internationally for its outstanding liberal arts college, superb professional schools and one of the Southeast's leading health care systems. Emory and its environment is a rich setting in which to launch your career.

Fellows in this program are able to develop expertise, leadership and project management skills in placements related to the libraries’ three strategic goal areas:

- Digital Innovations - in services, resources and scholarship;
- Special Collections - featuring services and resources for research and teaching in modern literature, African American history and culture, southern history and culture; and
- Customer-centered Library - creating distinctive research environments that integrate print and digital resources and enable connections among users, communities, resources, and tools.

The Fellows Program will be the first professional position for a new graduate. The framework for the Fellows experience includes dual tracks; that is, the Fellow will initially be a member of a primary work team and, during the first year, will also begin work on special projects and initiatives in areas outside of the primary area. A range of special projects and initiatives are underway and will provide the Fellows with opportunities to learn about and contribute to new developments in research library services. Primary work assignments for this year are targeting two key areas: 1) digital services in the Emory Center for Digital Scholarship (ECDS); or 2) research services in the Manuscripts, Archives, and Rare Book Library (MARBL).

A fellow in the Emory Center for Digital Scholarship (ECDS) will have opportunities to develop technical expertise as well as leadership and project coordination skills through collaborative work in areas such as digital publishing, data curation and preservation, Geographical Information Systems (GIS), and digital pedagogy. The fellow's work will also involve the development of digital services for faculty and students.

Fellows in MARBL Research Services will play a key role in the ongoing work of making MARBL collections accessible to a broad range of users, and providing programs and services that bring MARBL resources alive. Fellows in MARBL Research Services will have the opportunity to contribute to an expanding outreach
An initiative connecting MARBL collections to various communities and to assist in MARBL’s ongoing instruction program. Fellows will collaborate with MARBL administrative and curatorial staff, as well as staff from the Education and Outreach and External Affairs departments of Woodruff Library to connect MARBL resources with the Emory community, the larger Atlanta community, and visiting and virtual scholars.

**Qualifications:** In addition to a master’s degree in information studies or library/information science awarded between May 2013 and June 2014, we seek candidates who: demonstrate an understanding of and interest in the mission of academic libraries; articulate special interest in and foundation for gaining expertise in one of the primary work assignments; demonstrate evidence of self-directed learning and adaptability; show commitment to professional growth; demonstrate entrepreneurial and risk taking aptitude; are adept in use of technologies; communicate effectively and have excellent interpersonal skills; and show potential for leadership. Applicants must be eligible to work immediately in the U.S. for a two-year period.

**Salary and Benefits:** $48,000 (minimum) and comprehensive benefits package including 24 days vacation and ample sick leave benefit. See also [http://www.hr.emory.edu/eu/benefits/index.html](http://www.hr.emory.edu/eu/benefits/index.html). Relocation allowance provided. Funding for professional development provided.

**Application:** Please send your application to Linda Nodine via email (eul-libjobs@emory.edu). Applications may be submitted as Word or PDF attachments and must include the following:
- Letter of application describing your interest in a primary work assignment;
- Current resume; and
- Names, email addresses, and telephone numbers of 3 references including a current or previous supervisor.

Please enter “Research Library Fellow Program” in the subject line of the email. In your letter, please specify your interest in one of the primary work assignments and articulate your special interest in and foundation for gaining expertise in the area. **Candidates applying by January 31 will receive priority consideration.** Interviews will begin during February/March and continue until the positions are successfully filled.

**Institution:** Ranked as one of the Top 20 universities nationally by *U.S. News & World Report* in 2012, Emory University is internationally recognized for its outstanding liberal arts college, superb professional schools, and one of the South’s leading health care systems. Emory’s beautiful, leafy main campus is located in Atlanta’s historic Druid Hills suburb and is home to 7,656 undergraduates and 6,580 graduate and professional students. As the third largest private employer in Atlanta, Emory University and Emory Healthcare have a combined workforce of approximately, 27,747 and an annual operating budget of $4 billion. Emory University received $520.3 million in research funding in 2012. Emory recently concluded a successful fundraising campaign that raised $1.69 billion from 149,000 donors.

Ranked among the top 25 Association of Research Libraries (ARL) in North America, Emory University Libraries in Atlanta and Oxford, Georgia are an intellectual commons for Emory University. Comprised of 9 libraries, the holdings include more than 3.9 million print and electronic volumes, 83,000-plus electronic journals, and internationally renowned special collections. Emory is well known in a number of collection areas including modern literature, African-American history and culture, U.S. Southern history and culture,
and U.S. civil rights. Emory Libraries staff number approximately 137 and the overall library budget is approximately $25.3 million. The Emory Libraries is a member of the Association of Research Libraries (ARL), the Coalition for Networked Information (CNI), the Center for Research Libraries (CRL), the Council on Library and Information Resources (CLIR), International Federation of Library Associations and Institutions (IFLA), and the Scholarly Publishing & Academic Resources Coalition (SPARC) as well as regional associations including the Association of Southeastern Research Libraries (ASERL), Georgia Library Learning Online (GALILEO), and the GETSM Consortium (a consortium of the University of Georgia, Emory, Georgia Tech, Georgia State University, and Georgia Regents University).

The Emory Libraries include the Robert W. Woodruff Library, which is also home to the Manuscript, Archives & Rare Book Library (MARBL) and the Goizueta Business Library, and the Woodruff Health Sciences Library. Other campus libraries, which serve the specialized and professional schools, include the Pitts Theology Library and the Hugh F. MacMillan Law Library in addition to the Oxford College Library located on the Oxford Campus approximately 30 miles from Atlanta.

The Emory Center for Digital Scholarship (ECDS) supports projects in the humanities and the sciences. ECDS partners include the Robert Woodruff Library, University Technology Services, the Center for Faculty Development and Excellence, and a variety of other entities from across the University that provides expertise, assistance, and resources. The staff of the Emory Center for Digital Scholarship works with faculty and students from across the university to provide expertise, consultation, and technical assistance in the creation of digital projects. ECDS offers a one-stop-shop for anyone at Emory interested in incorporating digital technology into teaching, research, publishing, and exhibiting scholarly work.

*Emory University is an Equal Opportunity/Affirmative Action Employer and encourages women and minority candidates.*
