STACK LEVEL 7 OF WOODRUFF LIBRARY TO CLOSE FOR RENOVATION MAY 27

Stack Level 7 of the Woodruff Library will close for renovation beginning May 27. On that day, workers will begin the two-week process of moving Level 7 books to the Storage Library; those books will be temporarily inaccessible during the move period.

Level 7 books include call numbers F1001 through HJ, which include anthropology, business, Canadian history, economics, geography, Latin American history and statistics.

Once Level 7 books are safely settled in the storage library about mid-June, requests for retrieval can be made; deliveries will be made Monday through Friday to the Woodruff Library Learning Commons, Level 3, across from the Circulation Desk. Requesters are notified by e-mail when material arrives. For more information on retrieval and the renovation project, visit http://web.library.emory.edu/stacksmove.

Level 7 is the fourth in a series of six stack levels to be converted to compact shelving. The work is increasing shelving capacity, ensuring that as many of the library’s collections as possible are easily accessible to users on campus. Three group study rooms, additional electrical outlets and a comfortable lounge area are among upcoming Level 7 features. An ADA-compliant restroom, wheelchair accessible open carrels, closed studies and a new fire suppression sprinkler system also are planned.

Completion of the Level 7 renovation is expected in January 2009.
